

Muhammed Swalahudheen C V

Software Architect & Full Stack Developer

Kerala, India cvsalahu12@gmail.com github.com/salahu01 [LinkedIn](#) swalahu.netlify.app

SUMMARY

I'm Muhammed Swalahudheen C V, a software architect and full-stack developer with over 5 years of experience building products that pair clean interfaces with solid, scalable architecture.

I specialize in cross-platform applications (Flutter, React, Next.js), AI-powered automation, and offline-first systems — from Kotlin and Swift native tools to FastAPI and .NET backends.

EXPERIENCE

Fegno Technologies
Software Engineer

Ernakulam, Kerala · Full-time
Sep 2025 - Present

Architect and build cross-platform products end to end — Flutter monorepos, .NET and FastAPI backends, realtime and offline-first systems, broker/ERP integrations, and internal tooling that Fegno's teams reuse across client projects.

Mobile Application Developer

Sep 2023 - Sep 2025

Released and maintained multiple Flutter apps from concept to deployment, led cross-functional teams, built CI/CD pipelines for faster releases, and integrated a wide range of third-party services and APIs.

SciWiz Innovations
Flutter Developer

Kochi, Kerala · Full-time
Jan 2022 - Mar 2023

Turned design mockups into pixel-perfect Flutter apps, set up unit, widget and integration testing for reliable releases, did code review and mentored junior developers.

Freelance
Freelance Software Engineer

Kozhikode, Kerala · Remote
Apr 2021 - Jan 2022

Built Flutter apps for local clients.
